High	总高	72.5mm
Load	动态承重 (单个脚轮)	50Kg
Brake	是否带制	No

FROG C 65

Can you imagine a high-end car with poor quality wheels? Well, the same thing happens with office chairs. A designer office chair but with poor quality wheels is an embarrassing situation. You have to check that wheels are also high quality and allow you to make the most of their operation. Wheels are ideal for small spaces. They will save time, cleaning and effort, without annoying noises and with the possibility of going from one side to the other without dragging, without sweating or needing help from another person. Frog C 65 is one of our star wheels for office chairs, has been born with this objective. Robustness, total black body, a look that never goes out of style, and its size make it a very special wheel.

A caster without a brake to feel movement without limits.

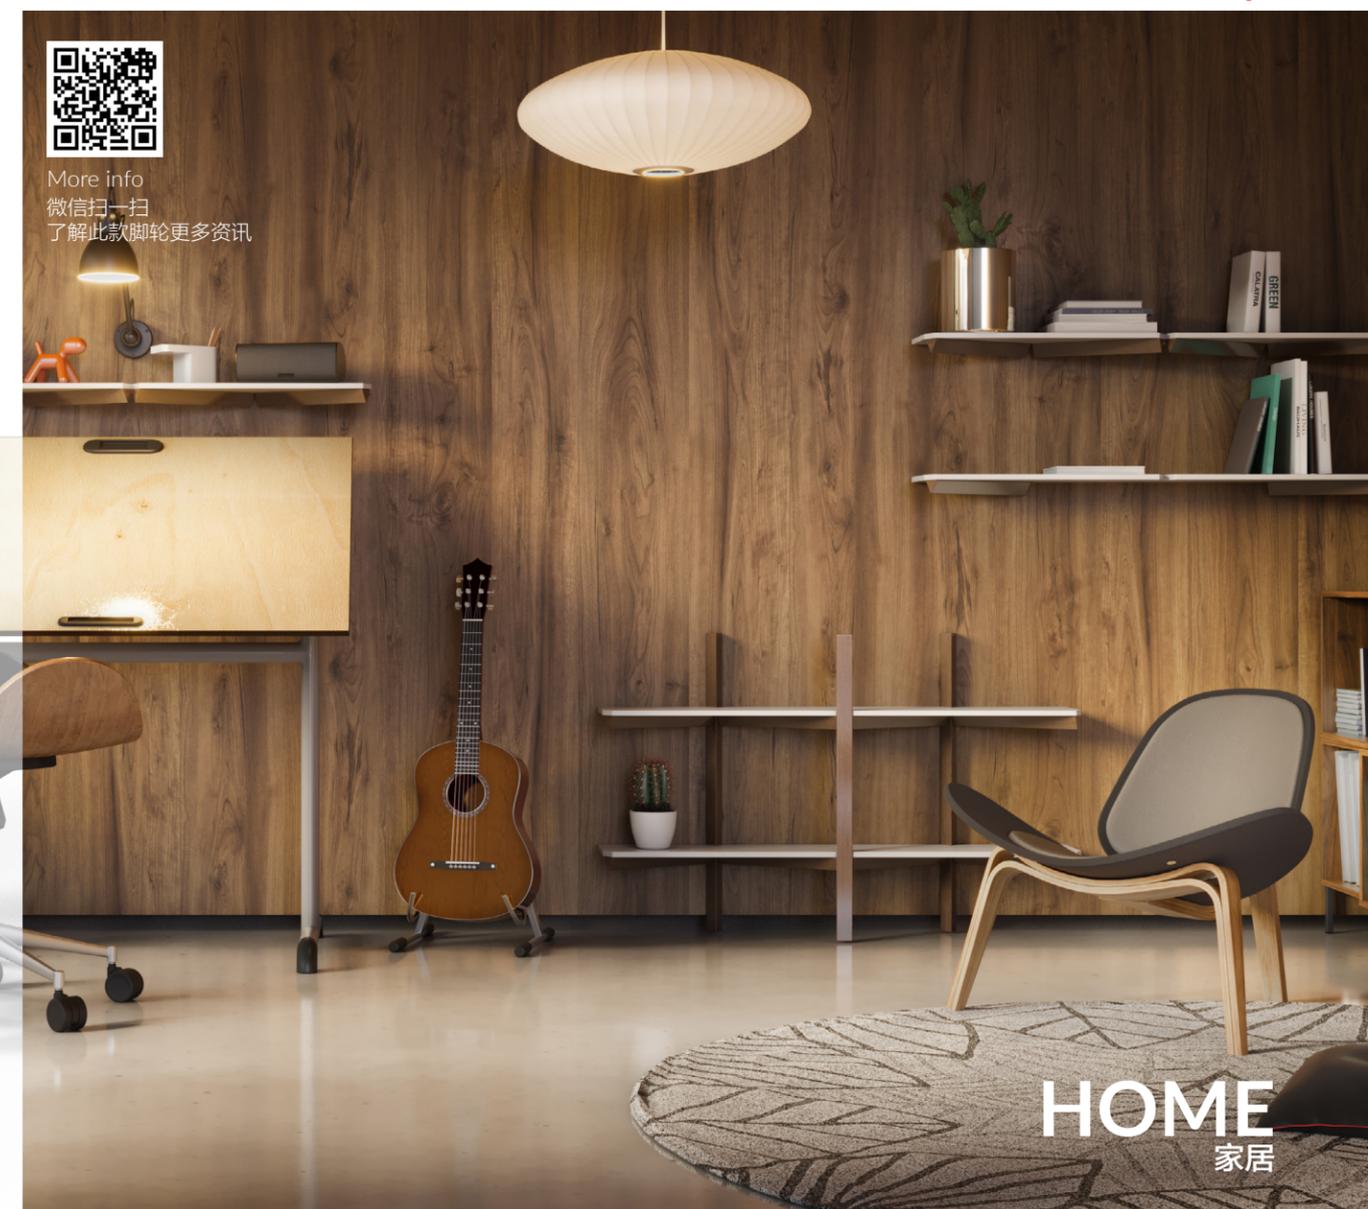

小青蛙65

你能想象一辆流线型设计的高配跑车搭配低端劣质轮胎所带来的违和感吗？同理，一张设计型的办公椅应搭配同样带设计感且高质的脚轮才能在视觉上及使用体验舒适度上达到极致。

65mm大小的小青蛙65采用永不过时的经典黑色作为脚轮的常规颜色，你可选择带95° PU软包边的边轮再搭配静音插杆的配件来感受脚轮顺滑转动同时所带来的静音效果。无刹车的脚轮结构让你能畅享移动的自由。

FROG C 50

Some jobs are more active than others, jobs that need constant movement and teamwork, and work days that go from meeting to meeting between different departments within the same company. For those employees who have the daily need to be moving from one place to another, our The Frog 50 wheel model without brake is the most chosen, to complement and give fluidity to office chairs, and thus when it comes to meeting they can do it quickly, easily and without having to drag chairs, also avoiding annoying noises.

Good energy in a team workflow as the movement of our wheels.

小青蛙 50

在有限的办公空间
有限的办公资源里
总有一群“好动”的人
他们需要把自己的座椅
来回移动到办公室的各个角度
来进行办公、培训、开会.....

面对办公座椅高频率的移动
你需要小青蛙50
50mm的脚轮直径
双轮的设计
“动”存在于“举手投足”间
自带的PU软包边
令脚轮移动时能达到静音的效果

小青蛙50
“动”与“静”的结合

NICOLÁS ALEM, ARGENTINA

Nicolás Alem,

Industrial designer born in the city of Córdoba, Argentina. He studied at the National University of Córdoba, Industrial Design Career.

Under the firm Nicolás Alem, he markets his furniture design projects and is currently in full development with his new brand Cabo Muebles, a younger brand with a coastal identity, which stands out for the seats and panels braided with rope, mostly designs light and modern.

When designing, what superpower would you like to have?

The power to interpret people's minds, read trends and anticipate cultural changes. Understand the desire that motivates people to turn a product into a success.

What if you had to design an object to put wheels what would it be? I would like to add wheels to outdoor furniture with well-designed, weather-resistant products that match the aesthetics of the furniture.

If you could go to dinner with a designer, who would you go with? I would like to go to dinner with Yves Behar, I think he knew how to interpret the change of time and translate it into projects in a very interesting way.

In what influential period of design would you like to be born?

In the 60s, great paradigmatic changes took place that marked modern design.

What is your favorite conversation topic?

I like the stories of people, trips, I like to know what happens in other places and how everyday things are resolved in another way.

What is the last book you have read?

I don't remember what the last complete book was, sometimes I don't finish them because I get bored, I usually read short stories or storybooks. I always have classics like Horacio Quiroga and Cuentos de la Selva on hand.

What do you value most in the design of a furniture wheel?

In a wheel I look for quality, smoothness in sliding, that does not produce noise and, as far as possible, that they are made of a soft touch material that does not scratch the surface of the floor.

Would you prefer to travel to the future or to the past? I think that to the past, since we have to build the future, we are all going through that journey whether we are aware of it or not.

Can you tell an anecdote about any of your projects? A project in which I was proud to participate was a line of packaging for Coca Cola Zero that we made while working in a studio in Argentina, Teckdes. It was very interesting, in the company they thought to invest in a single design and finally we were able, through design, to launch the 6 models.

Do you have any favorite material to work with? I work with wood mainly, we use metal and also rope fabric to produce the upholstery.

What is the best memory of your childhood? I remember with great joy the winter sun in Córdoba, the moments with my grandfather for example, going fishing in a river or lake.

What is the rarest object in your room? I got a bit predictable and there is nothing out of the ordinary in my room.

What could we find in your garbage basket? Papers and remains of materials with which I make tests and prototypes.

Which of your designs would you choose to survive a zombie attack? I think the only thing that would help me escape is a vehicle I designed to graduate my final job.

What do you currently think of your first design? I think that looking at the distance, I still like it. It has many concepts that are taken into account today for similar vehicles. One criticism me, they lacked guts to bring it to reality at that time.

If you were to write a book, what name would you give it? It's a very good question, I think it would be called "The abundance of scarcity". It has to do with a way of interpreting reality, in contexts of crisis and lack of resources, there are always abundant resources that we stop looking at because we are too immersed in what is scarce.

Discover Nicolas projects.

了解更多他的设计

尼古拉斯·阿莱曼，阿根廷科尔多瓦工业设计师，曾就读于科尔多瓦国立大学，工业设计专业。尼古拉斯·阿莱曼在本人名下的公司进行家具设计，目前正在发展自己的新品牌“Cabo Muebles”——一个年轻崭新的品牌，主打作品是座椅和编织面板，大多是现代、轻型的设计。

在设计的时候，你希望自己能拥有怎样的超能力呢？能解读人心、解读趋势、预测文化变化的超能力。能了解是什么原因使人们将产品转化为成功的超能力。

如果你要设计一个带脚轮的家具，你会设计什么呢？我想给户外的家具装上轮子，用精心设计的耐用产品来匹配家具的美。

如果你有幸能和一位梦寐以求的设计师共享晚餐，你会选择谁呢？Yves Behar，他能解读到时代的变化，并将其以非常有趣的方式转换到项目中。

你想出生在哪个对设计有影响的年代？60年代，那时，在标志着现代设计方面发生了巨大的变化。

你最喜欢谈什么话题？人们的故事、旅行，我想知道在别的地方发生的事，想知道另一种解决日常事情的方式。

你最近读过哪本书？我也记不得最近完整读完的书了，有时候，我会因为内容太沉闷而看不下去，我通常会看短篇小说或故事书，我手头上总有像奥拉西亚·基罗加的《丛林的故事》这样的经典。

在家具脚轮设计方面，你最重视什么？高质、转动流畅、静音，可以的话最好还带不会刮伤地面的柔软材料。

如果能进行时空穿梭，你是想去未来还是想回到过去？过去吧，未来需要我们去构建，而无论我们是否意识到这一点，我们都正经历这旅程。

说说你设计项目中一件比较印象深刻的事情吧我参与了一个特别自豪的项目——0° 可口可乐的包装设计。当时我还在阿根廷Teckdes工作室工作。有趣的是公司原本只是想投资一个包装设计，但最终却因为设计的精美，推出了6款设计。

设计时你最喜欢用什么材料？我是一名家具设计师，自己有一家生产家具的工厂，我主要会用到木，还有金属、绳索编织来进行室内装潢。

你童年最美好的回忆是什么呢？在科尔多瓦冬日的暖阳里，我和祖父一起的时光，我们一起去钓鱼。

你房间里最奇怪的东西是什么？我还是有一点预测能力的，我预测到自己的房间没有奇怪的东西。

我们能够在你的垃圾篓里面找到什么？纸和一些我用来做产品试验、做首板的材料余料。

如果像美剧《行尸走肉》的时代来临了，你会选择自己的哪一款作品幸存呢？唯一能助我逃脱的是我设计的一辆汽车，它能够让我在最后的一件设计里保全自我。

现在你怎么看自己的第一件设计呢？从远处看，我还是很喜欢的。这设计作品的很多概念现今都被类似的汽车考虑到。有人说我当初缺乏勇气，导致我的设计没能变成现实。

如果你要写一本书，那这本书的书名是什么呢？这是一个非常好的问题，我想书名会是《稀缺的丰富》。书名与解读现实的一种模式相关，在资源匮乏、资源危机的大背景下，我们总是沉浸在稀缺的东西里，而不去关注一些丰富的资源。

专访

5 FROG INSPIRATIONS

爱上青蛙系列的5大缘由

Inspiration is a subjective, sudden and ephemeral emotional state, in which we experience meaning in a concentrated way and after which, generally, we are motivated to act.

We want to inspire you through the Frog Family.

灵感是一种主观、突然且短暂的情绪状态，这良好的情绪状态能赋予我们动力去创造。我们希望青蛙系列能赋予你这良好的情绪状态。

INSPIRE ELEGANCE

Its different types of colors and chrome will give your space a touch of elegance.

优雅
用永不过时的黑色作为青蛙65及小青蛙65的颜色主调，搭配不同形状的铬色边盖，细节间彰显优雅。

INSPIRE MOVEMENT

Sometimes the brake is not necessary, dare to try the true freedom of movement with Frog C.

移动
生活上学会用“减法”，也许能得到更多.....
当脚轮的刹车制手并不是必需时，要学会舍弃，才会真正感受到移动的自由。

INSPIRE TRUST

Trust in the power of the little things, our Frog 38 lasts like the biggest wheels.

信心
小小的身躯，小青蛙38作为青蛙系列最小的成员，单个脚轮的动态承重也高达75公斤。信心源于实力。

INSPIRE TEAMWORK

Exclusively designed for office chairs to encourage collaboration between colleagues.

合作
同一系列，不同尺寸，专为办公空间而造。
求同存异，各展所长，办公团队才能紧密合作，将良好的效果发挥到极致。

INSPIRE INTELLIGENCE

Patented Smart Brake system that will surprise you with everything a wheel can do.

智能
拥有发明专利及实用新型专利的智能刹能把无刹车、非承重刹车及承重刹车三种不同的功能合一，其智能程度超乎你的想象。

FROG C 38

In an office, we can find many types of furniture according to the needs of each job, but if there is a piece of furniture that is used in all sectors beyond the office chair and table, we can say that it is the chest of drawers or auxiliary furniture, those that complement and They finish filling the space. Very useful and practical and mostly equipped with wheels so that their operation is used 100%. Frog 38 is our most chosen wheel for auxiliary furniture, both for chests of drawers and TV stands. A small wheel but one that has it all, in a huge variety of colors and with two types of brakes to choose the one that best suits our style and that of our office.

Your perfect secretary can also be a furniture wheel.

小青蛙38

办公室除了办公桌、办公椅还有其他辅助性的家具如文件柜、电子显示屏，等等

而在辅助性办公家具中用得最多的脚轮是小青蛙38

38mm直径的小身躯却拥有大大的力量
单个脚轮动态承重高达75公斤
还拥有两种不同设计的刹车制手持供用户选择

高质家具小脚轮
也可成为你的得意小助手

FROG S 65

This wheel keeps a secret and once you discover it you won't believe how something so small has it all. Frog S has a patented system called smart brake that turns a wheel into 3 different ones and from one moment to the next, you just have to change the mode. Smart Brake is a system with three locking options N L U, in L mode the wheel will be without a brake and soft braking will be activated when the person sits on the chair, in N it will always be free, without any brake and in U the wheel will be braked and unlocked when the person sits in the chair. Frog S will undoubtedly be able to accompany you on every adventure you propose.

智能青蛙65

这款脚轮藏有一个秘密
一旦发现这个秘密
你便会惊叹其神奇之处
一个65mm大小的脚轮下
隐藏着一个智能刹车系统
这个拥有发明专利及实用新型专利
的智能刹车系统能把
无刹车、非承重刹车及承重刹车
三种不同的功能合一
在这个65mm的脚轮里

一个脚轮能同时满足你三个愿望

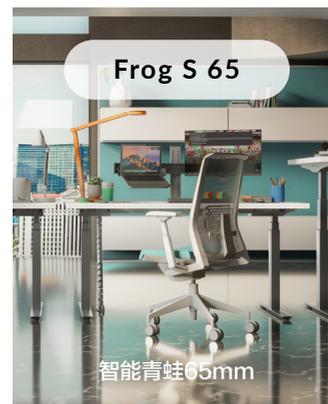

智能——往往就在你看不见
却感受得到的地方
