家具配置上脚轮，总是能带来更多更实用的用途选择。带脚轮的家具，诸如椅子，书桌或者储物车，拥有了更加方便的移动性，让人可以根据不断变化的需求轻松重新布置工作空间。凭借我们耐用且坚固的脚轮，家具可以毫不费力地从一个地方移动到另一个地方，大大优化了空间的协作性和灵活性。装置脚轮的家具另一个优点是方便清洁和维护。移动的敏捷性可以让用户轻松进入卫生死角进行彻底清洁。另外，脚轮的存在让重新规划办公空间、执行深度清洁任务或更改空间设计更为轻松。我们的奥林脚轮安全坚固，设计独树一帜，拥有各种尺寸和颜色，有刹和无刹两种可供选择。

Having furniture with wheels is always a practical and versatile option. These furniture pieces, such as chairs, desks, or storage carts, offer convenient mobility that allows for easy rearrangement of the workspace according to changing needs. With our durable and resistant wheels, they can be effortlessly moved from one place to another, facilitating collaboration, flexibility, and space optimization.

Another advantage of furniture with wheels is their ability to facilitate cleaning and maintenance. By being able to easily move them, difficult-to-reach areas can be accessed for more thorough cleaning. They also make it easier to reorganize the office for deep cleaning tasks or design changes.

Our Olym wheels are safe, strong, and uniquely designed. They are available in different sizes and colors, with or without brakes.

配置脚轮是在办公室或家中移动大型和重型家具的实用解决方案。使用脚轮的主要优点是可以在移动大型物体时减少物理负荷。有了脚轮，无需手动抬起这些家具就可以让他们在不同的表面滑动，避免受伤的风险并且保护用户的人身安全。这种类型的家具在需要频繁改变空间布局的环境中尤为实用。使用脚轮，可以轻松重新安置重型家具，简化布局流程并最大限度的减少对日常活动的干扰。我们的伊娃设计性脚轮，是理想之选。它们坚固且稳定，足以承受高负载。此外，其制动系统安全性高，可防止家具倾倒或意外移动。

EVA 100

Heavy furniture with wheels is a practical solution for moving large and heavy objects in the office or at home. The main advantage of having wheels is their ability to reduce physical strain when moving large items. Instead of having to manually lift these furniture pieces, the wheels allow them to be easily slid across different surfaces, avoiding the risk of injuries and protecting the user's physical integrity.

These furniture pieces are especially useful in environments where frequent changes in space arrangement are required. With the wheels, it is possible to easily relocate the heavy furniture, streamlining the process and minimizing disruptions to activities.

Our EVA design is ideal for this purpose as they are strong and stable enough to bear the load. Additionally, their braking system is secure, preventing the furniture from sliding or unintentionally moving.

DENIZ AKTAY, GERMANY.

My name is Deniz Aktay and I live in Stuttgart, Germany. During my studies of architecture and urban planning at the University of Stuttgart and for my perennial work experience as an architect, the aspects creating, forming and designing always have been important in my creative work. Following this passion also in my free time, I could successfully participate on several furniture design contests. Additionally, the more I focused on designing furniture and objects, the more my enthusiasm grew. Over time I figured out that good design means for me finding the right harmony between proportion, material and functionality. This goes with my demand for simplicity, originality, proper element joining, detailing and appropriate use of the materials involved. Considering all these aspects, designing a new piece is an interesting challenge every time.

If you had to design a piece of furniture with wheels, what would it be? A bookshelf probably.

When designing, what superpower would you like to have? I would love to stop the time. Especially in today's time with lots of schedules and deadlines I often feel the lack of time to fully concentrate on designing.

If you could go to dinner with a designer, who would you go with? If he would be still alive I would love to eat with Poul Kjærhol, one of my favourite designers.

Would you rather travel to the future or the past? I would love to travel to the past. Now that I really know what I love to do I would travel back and focus on that much earlier.

What is your favorite topic of conversation? Furniture Design!

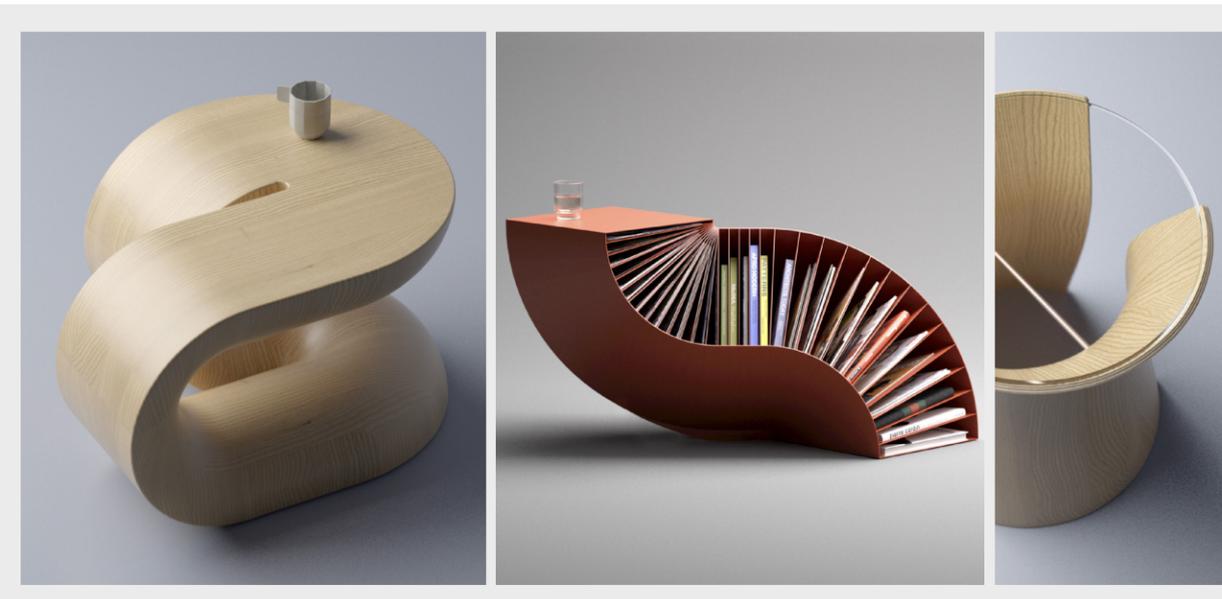

Can you tell an anecdote about one of your projects? Not a specific one but I destroyed many of my precious prototypes by simply being too clumsy and having too few space in my room.

What is the rarest object in your room? Unfortunately plants :D

What are your favorite materials when designing? I love metal and plywood because of their specific characteristics, their pure aesthetics and their enormous variety of shapes.

In what influential era of design would you like to have been born? Definitely Cubism!

What do you value most in the design of a furniture wheel? Smoothness and flexibility.

What could we find in your trash can? Lots of paper with sketches.

If you wrote a book, what would you name it? About design.

What is the best memory of your childhood? Building castles and cities with Lego.

Which of your designs would you choose to survive a zombie attack? Everything that is pointy and sharp. So I would choose some of my metal tables. I hope they are as stable I imagine them to be :D

What do you currently think of your first design? My first 3d designs were terrible but my first prototype, which is still living ;) is awesome!

What is the last book that you have read? Rick Rubin - The Creative Act.

我叫Deniz Aktay, 目前居住在德国斯图加特。在斯图加特大学攻读建筑和城市规划专业期间, 以及我作为建筑师的长期工作经验中, 创新、塑造和设计等方面一直是我的创意工作中的重要因素。在闲暇时间里, 我也沉浸于这种热情, 并且参加了多个家具设计比赛并获得了成功。此外, 我越专注于家具和物品的设计, 我的热情就越高涨。最终, 我发现对我而言, 优秀的设计意味着找到比例、材料和功能之间的协调与和谐。这符合我追求简约、独创、元素正确结合、精细, 以及合理运用材料的要求。考虑到所有这些方面, 每一次设计一件新的作品都是一个有趣的挑战。

设计的时候, 你想要拥有哪一个超能力? 我想要停止时间。特别是在今天这个有许多日程安排和截止日期的时代。我经常感到没有时间完全专注于设计。

丧尸来袭时, 你会选择你的哪一项设计求生? 一切尖锐且锋利的东西, 所以我会选择一些金属桌子, 希望它们能像我想象的那样稳定: D

如果你有机会和一名设计师共进晚餐, 你会和谁一起去? 如果保罗·克耶霍尔姆还在世的话, 我很想和他一起去, 他是我喜欢的设计师之一。

你更愿意回到过去还是穿梭到未来? 我想回到过去。现在我清楚地知道我喜欢做什么, 我可以回到过去并且更加专注于我爱做的事。

可以选择的话, 你想出生在哪一个有影响力的设计时期? 绝对是立体主义时代!

你可以和我们讲讲你项目中发生的一些趣事么? 不是某一件事, 但是我曾不小心, 笨手笨脚地毁了很多珍贵的原型设计, 我房间的空间太小了。

如果你要写一本书, 你会给他取什么名字? 关于设计

你在工作中, 有最喜爱的材料吗? 我喜欢金属和胶合板, 因为它的特殊性, 纯粹的美还有各式各样的形状。

你最近读的一本书是什么? 里克·鲁斌- 创意行为。

我们在你的垃圾桶里可能会翻到什么? 很多绘有草图的纸。

你童年时期最美好的回忆是什么? 用乐高积木建造城堡和城市。

你房间里最奇怪的东西是什么? 不幸的绿植: D

你现在怎么看待你的第一个设计? 我第一个3D设计很糟糕, 我的第一个设计原型, 还保存地好好的;) 太不可思议了!

你最喜欢的聊天话题是什么? 家具设计!

带脚轮家具的设计中, 你认为哪一环是最重要的? 柔软性和柔韧性

如果你必须得为一件物品安装上脚轮, 那这会有什么? 可能是书架

在现代工作环境中，个人工作空间有着日益增长的趋势。这些空间允许员工在办公室内随时随地工作，从而给予其灵活性和自由度。员工还可以定制工作环境以满足自身的需求和偏好。如果他们想要集中注意力，可以选择一个安静的地方，或者如果想与同事互动，可以选择一个更具协作性的区域。此外，便捷的移动性可以推动创造力和生产力，允许员工自由地改变工作场景，探索办公室内不同的工作空间。这有助于打破单调并激发灵感。我们的脚轮凯莉完美的契合了这一功能角色，这是一款优质坚固且出色的轴承脚轮。

Individual workspaces are a growing trend in modern work environments. These spaces offer flexibility and freedom by allowing employees to work wherever and whenever they want within the office. They can also personalize their work environment to meet their needs and preferences, choosing a quiet spot if they need to concentrate or a more collaborative area if they want to interact with their colleagues.

Furthermore, mobility fosters creativity and productivity by allowing employees to change scenery and explore different workspaces within the office. This can help break monotony and stimulate inspiration.

Kelly is our best wheel to fulfill this role, a high-quality, robust wheel with excellent bearing capacity.
