想象一下，一个可以适应家庭中最小成员的需求的真正多功能和创造性的空间，就在眼前。在这个房间的中央，一个木制平台是孩子玩耍和休息的完美场所。这个多功能平台不仅是一个娱乐场所，而且在孩子需要休息时会变成一张大床。

在洛伊III脚轮的加持下，这一转变实现得如此平稳简单，每个脚轮设计用于支撑 50 公斤负重并易于滚动。装置上这些脚轮，平台可轻松移动，让儿童房活动中心适应孩子不断变化的需求随时变换。这是一个集玩耍、梦想和休息于一体的地方。

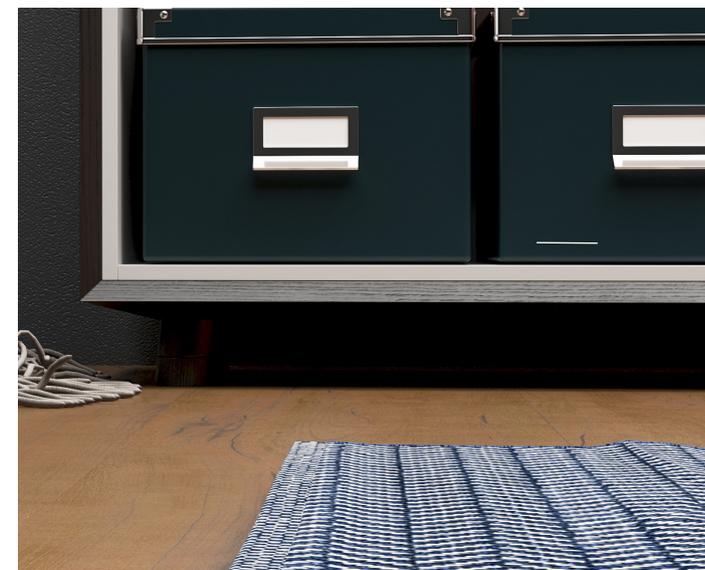

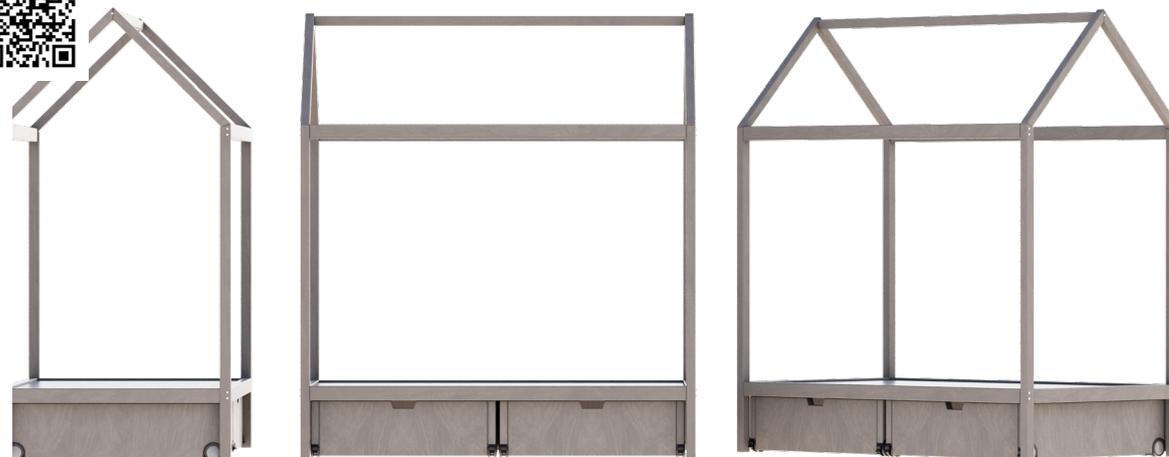

这种创造性的理念证明，智能设计可以在儿童空间中带来实用和多功能的解决方案。此外，洛伊III 车轮为这个多功能空间增添了更多的实用性和时尚性，使其变成了一个神奇的角落，孩子们可以在这里自由发挥他们的想象力，享受安然休憩。

LOY III 50

Imagine a truly multifunctional and creative space that caters to the needs of the little ones in the house. In the center of this room, a wooden platform stands as the perfect solution for play and rest. This versatile platform is not only a place for fun but also transforms into a huge bed when it's time to rest.

What makes this transformation so smooth and simple are the Loy III wheels, designed to support 50 kg each and allow for easy rolling. These wheels make the platform easy to move, turning it into a focal point in a space that adapts to the ever-changing needs of children. It's a place for play, dreaming, and resting, all in one.

This creative approach shows that smart design can lead to practical and versatile solutions in children's spaces. Furthermore, the Loy III wheels add a touch of functionality and style to this multifunctional space, turning it into a magical corner where the little ones can unleash their imagination and enjoy a well-deserved rest.

MIKHAIL CHERNIKOV, LISBOA

Industrial designer. Specialized in developing careful, quality design of furniture and interior items. He also makes high-quality 3D models and visualizations as documentation for production: plans, models for CNC cutting, reamers for laser cutting.

What everyday object do you think would be much better if it had the ability to speak? I think a refrigerator with the ability to speak would be quite useful. It could alert you when items are about to expire, suggest recipes based on its contents, or even remind you to grab that forgotten carton of milk from the grocery store.

If you could time travel, which influential design era would you like to visit, and why? I would love to visit the Art Deco era, which spanned the 1920s and 1930s. The Art Deco design style was characterized by its bold geometric shapes, rich colors, and luxurious materials. It would be fascinating to experience the glamour and innovation of that time firsthand.

How did you start your career as a designer? Have there been any special moments or experiences that inspired you? I started my career as a designer by pursuing a formal education in design and then gaining practical experience through internships and freelance work. One of the most inspiring moments was when I saw how design can significantly impact people's lives, making them more comfortable, efficient, and beautiful.

When it comes to designing, what superpower would you like to have? If I could have a superpower for designing, I would choose the ability to instantly materialize my ideas into physical prototypes. This would streamline the design process and bring concepts to life for faster testing and development.

If you had to design furniture with wheels, what would it be? I would design a modular, multifunctional living room set on wheels. Each piece of furniture, like sofas, coffee tables, and bookshelves, would be on wheels, allowing for easy rearrangement to adapt to different living spaces and activities.

What do you value the most when selecting wheels for a design?

When selecting wheels for a design, I value their functionality, durability, and aesthetics. The wheels should complement the overall design, perform their intended function effectively, and withstand the demands of their application.

If you could have dinner with any designer, who would you go with? I would choose to have dinner with Dieter Rams, the influential German industrial designer known for his minimalist and functional design principles. I'd love to learn from his wisdom and discuss his approach to timeless design.

Can you share an anecdote from one of your projects? An anecdote from one of my projects involves a last-minute change in the design of a product, which turned out to be a significant improvement. It taught me the importance of adaptability and how even unexpected alterations can lead to better outcomes.

Which of your designs would you choose to survive a zombie attack? I would choose a well-designed, durable, and versatile backpack. It's not only stylish but also functional, with plenty of storage compartments and comfortable straps. This would be essential for carrying survival supplies during a zombie attack.

What do you currently think about your first design? My first design holds a special place in my heart as it marked the beginning of my design journey. While it may not be as refined as my later work, I see it as a crucial stepping stone that allowed me to learn and improve. It reminds me of how far I've come as a designer and how much more I can still achieve.

工业设计师。专注于开发精心设计、高品质家具和室内装饰。同时在设计中采用高质量的可视化技术和 3D 模型作为生产文档：蓝图、CNC 切割模型、激光切割铰刀。

带脚轮家具的设计中，你认为哪一环是最重要的？

在为设计选择脚轮时，我重视它们的功能、耐用性和美观性。脚轮必须与整体设计相辅相成，有效地执行其预期功能，并能满足其应用需求。

日用品中，你希望哪一件会说话？

我认为会说话的冰箱非常有用。它可以在物品即将过期时提醒您，根据库存建议食谱，甚至可以提醒你拿起那盒被从超市里买来就被遗忘的牛奶。

如果你可以穿梭时空，你想要去哪一个有影响力的设计年代，为什么？

我很想去看看跨越 十九世纪二十年代和 三十年代装饰艺术时代。装饰艺术设计风格的特点是大胆的几何形状、丰富的色彩和奢华的材料。亲身体验那个时代的魅力和创新会让我沉醉。

你是如何开始你的设计生涯的？有没有特别的时刻或者经历激发了你的灵感？

我的职业生涯始于接受正规的设计教育，然后通过实习和自由职业获得实践经验。最鼓舞人心的时刻之一是，当我看到设计对人们的生活产生斐然的影响时，设计让生活变得更加舒适、高效和美观时。

设计的时候，你想要拥有哪一个超能力？

如果我能拥有超能力进行设计，我会选择能够立即将我的想法转化为物理原型。这将简化设计过程，并将概念变为现实，从而加快测试和开发速度。

如果你必须得为每一件物品安装上脚轮，那这会是什么？

我会设计一个带脚轮的模块化多功能客厅。每件家具，如沙发、咖啡桌和书架，都会配置脚轮，可以很容易地重新布置以适应不同的空间和活动。

如果你有机会和一名设计师共进晚餐，你会和谁一起去？

我会选择与迪特尔·拉姆斯共进晚餐，他是一位有影响力的德国工业设计师，以其极简主义和功能性设计原则而闻名。我很想学习他的智慧，并讨论他的超前设计方法。

你可以和我们讲讲你项目中发生的一些趣事么？

其中一个轶事是我在一个项目的最后一刻进行了更改，结果证明这是一个重大优化。这件事教会了我适应性的重要性，以及即使是意想不到的修改也能带来更好的结果。

丧尸来袭时，你会选择你的哪一项设计求生？

我会选择一个设计精良、耐用且用途广泛的背包。它不仅时尚而且得实用，配有大量储物隔层和舒适的肩带。这对于在丧尸袭击期间运输生存物资至关重要。

你现在怎么看待你的第一个设计？

我的第一个设计在我心中占有特殊的位置，因为它标志着我作为设计师的旅程的开始。虽然它可能不像我后来的作品那样精致，但我认为它是我学习和优化设计过程中的关键跳板。这个设计提醒我作为一名设计师已经走了多远，以及我还能完成多少设计。
